10 MAGICAL DAYS IN SOUTH AFRICA

2019–2020

ABOUT SOUTH AFRICA

CAPE TOWN

From iconic Table Mountain to dramatic coastal roads leading to the Cape of Good Hope to the vineyards carpeting the Winelands, Cape Town offers something for everyone. The proximity to nature is a constant source of wonder in Cape Town, whether it is watching whales breach from a restaurant deck overlooking beautiful False Bay, from July through October; or seeing a veritable sanctuary of penguins, one of the few places in the world where you can get close to them at Boulders Beach. Cape Town has the oldest wine industry outside of Europe, and off the coast of Cape Town lies Robben Island, a prison to Nelson Mandela, the "Father of the Nation." Today, it's a museum, as well as a UNESCO World Heritage Site.

JOHANNESBURG

Johannesburg is South Africa's largest city, with a multi-cultural, cosmopolitan vibe. The largest man made "Urban" forest is located in Johannesburg. There are over 6 million trees in the city. Johannesburg is the place of gold. The Mponeng Gold Mine is the world's deepest mine and extends down to 4 kilometres below the surface. A trip to the bottom of the mine takes about an hour. On the Gold Reef City Tour you can actually go down a mine shaft and watch the pouring of a gold bar. While Johannesburg has a reputation as one of the most dangerous cities in the world, it takes an average of only 60 seconds for police to respond to a crime scene in the central business district (CBD). There is a CCTV system that covers every street corner and scanning vehicle licence plates. Johannesburg is the second highest city in the world 2000m above sea level. Johannesburg has a large thriving Jewish community.

GREATER KRUGER NATIONAL PARK

The mighty roar of the lion, the powerful call of the elephant, the thunderous clap of a rhinoceros herd—the wild things are certain to be found within South Africa's massive Kruger National Park area. All "Big Five" are represented here: lions, leopards, rhinos, elephants and buffaloes. You may also find cheetahs, spotted hyenas, wild dogs, kudu, nyala, impala, wildebeests, zebras, waterbucks, warthogs, baboons, Nile crocodiles (the world's second largest reptile), water monitor lizards and puff adder snakes. One of Africa's largest reserves, Kruger stretches through 7,500 square miles in northeastern South Africa, and borders Zimbabwe and Mozambique. Becoming South Africa's first National Park in 1926, Kruger has several private game reserves in which to explore. With over 270 animal species, 517 types of birds, 90 varieties of fish and amphibians, 2,000 kinds of plants and even bushman rock paintings, there is much to see and experience. There are no fences between the national park and the bordering reserves, allowing wildlife to roam freely, the reserves are not accessible for day visitors, meaning you practically have the bush all to yourself for an exceptional safari experience.

ITINERARY AUG 2019

Day 1

Johannesburg is South Africa's largest city, with a multi-cultural, cosmopolitan vibe. The city has been going through a major urban revival. Wonderful restaurants and sidewalk cafés offer virtually every type of cuisine.

Day 2

Glitzy shopping and art galleries—

Sandton City and Nelson Mandela Square are a shopper's paradise. There are many rewarding sites that pay homage to the great South African leader, Nelson Mandela, including the Apartheid Museum, Liliesleaf Farm, Nelson Mandela Square and the Mandela House in Soweto.

Day 6–9

Once a name synonymous with the oppression and injustice of apartheid, people are now drawn to Soweto and to the vitality of Vilakazi Street, home to Nelson Mandela and his family from 1946 to the 1990s. In fact, this is the only street in the world to have housed two Nobel Peace Prize winners, Mandela and Bishop Desmond Tutu.

ADDITIONAL INFORMATION
